

1" Thick Door Collection

CRP-10

matching drawer front available

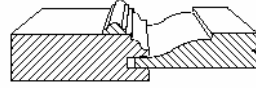

7-1/2" x 7-1/2"
2-5/16" framing
Slant raise shown

CRP-10A48

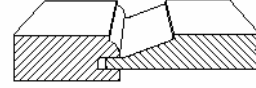

matching drawer front available

8-7/8" x 8-7/8"
3" framing
RM raise shown

CRP-30

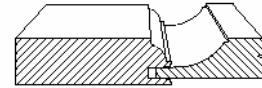

8-1/4" x 8-1/2"
2-5/16" framing
Slant raise shown

Normandie

matching drawer front available

9-3/4" x 9-3/4"
3-3/8" framing
P-317 raise shown

Provence

matching drawer front available

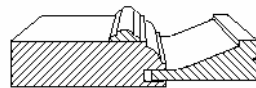

10" x 10"
3-3/8" framing
P-320 raise shown

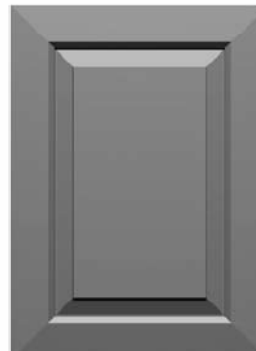

Staffordshire

matching drawer front available

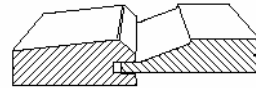

10-7/16" x 10-7/16"
3-3/8" framing
P-316 raise shown

Summit

matching drawer front available

8-1/4" x 8-1/4"
2-11/16" framing
Slant raise shown

All 1" thick doors will incur a 30% material upcharge. If premium grade is selected, additional upcharges will apply. Framing beads on the Normandie, Provence and Staffordshire are designed to accept 7/8" thick panels. Panels will be flush with framing on face of door.

Minimums listed are based on panel raise shown and will vary by raise; see Offering and Availability for additional options. Framing width listed is determined by measuring across the back of the framing unless otherwise noted.

*The beveled framing of the Summit door gives the illusion that mitered joints may be slightly open; however, the blind tenon joint is in fact, fully closed and very strong. Finishing materials will also accumulate at the joints, further accentuating the joint. Sanding may alter the joint's overall appearance. These characteristics are not considered defective and the product will not be replaced.

Size listed under each door represents minimum size for door. Door must exceed minimum listed by at least 3" in either width or height. Panel raise selection has an impact on actual minimum, so minimums shown are guidelines only.

Offering & Availability

All our doors are available in a wide variety of specifications to satisfy your custom needs. The information below indicates any exceptions or limitations pertaining to the designs shown on the previous page(s). For a detailed listing of particular option specifications, refer to the download indicated. These sections can be downloaded by clicking the appropriate yellow links to the right of the door images in each door category.

Mullion/Glass	See Design Options Download	All available except Summit - apply over plywood only.
Appliance panel	See Design Options Download	All available.

IMPORTANT DESIGN NOTE: Be sure to leave extra clearances (using fillers or extended stiles) between cabinets and adjacent deep cabinets and walls when using 1" thick designs or the doors will bind when opening. Also, use 1-1/4" overlay or LESS as opening doors on adjacent cabinets at the same time will result in door binding on larger overlays. These cautions are particularly critical on 1" thick doors with Applied Moldings (IE: Staffordshire)
