Grooved panel doors available with vertical grain only. Minimums listed are based on panel raise shown and will vary by raise; see Offering and Availability for additional options. Framing width listed is determined by measuring across the back of the framing unless otherwise noted.

Size listed under each door represents minimum size for door. Door must exceed minimum listed by at least 3" in either width or height. Panel raise selection has an impact on actual minimum, so minimums shown are guidelines only.

Offering & Availability

All our doors are available in a wide variety of specifications to satisfy your custom needs. The information below indicates any exceptions or limitations pertaining to the designs shown on the previous page(s). For a detailed listing of particular option specifications, refer to the download indicated. These sections can be downloaded by clicking the appropriate yellow links to the right of the door images in each door category.
